

## KB Article - AnyConnect

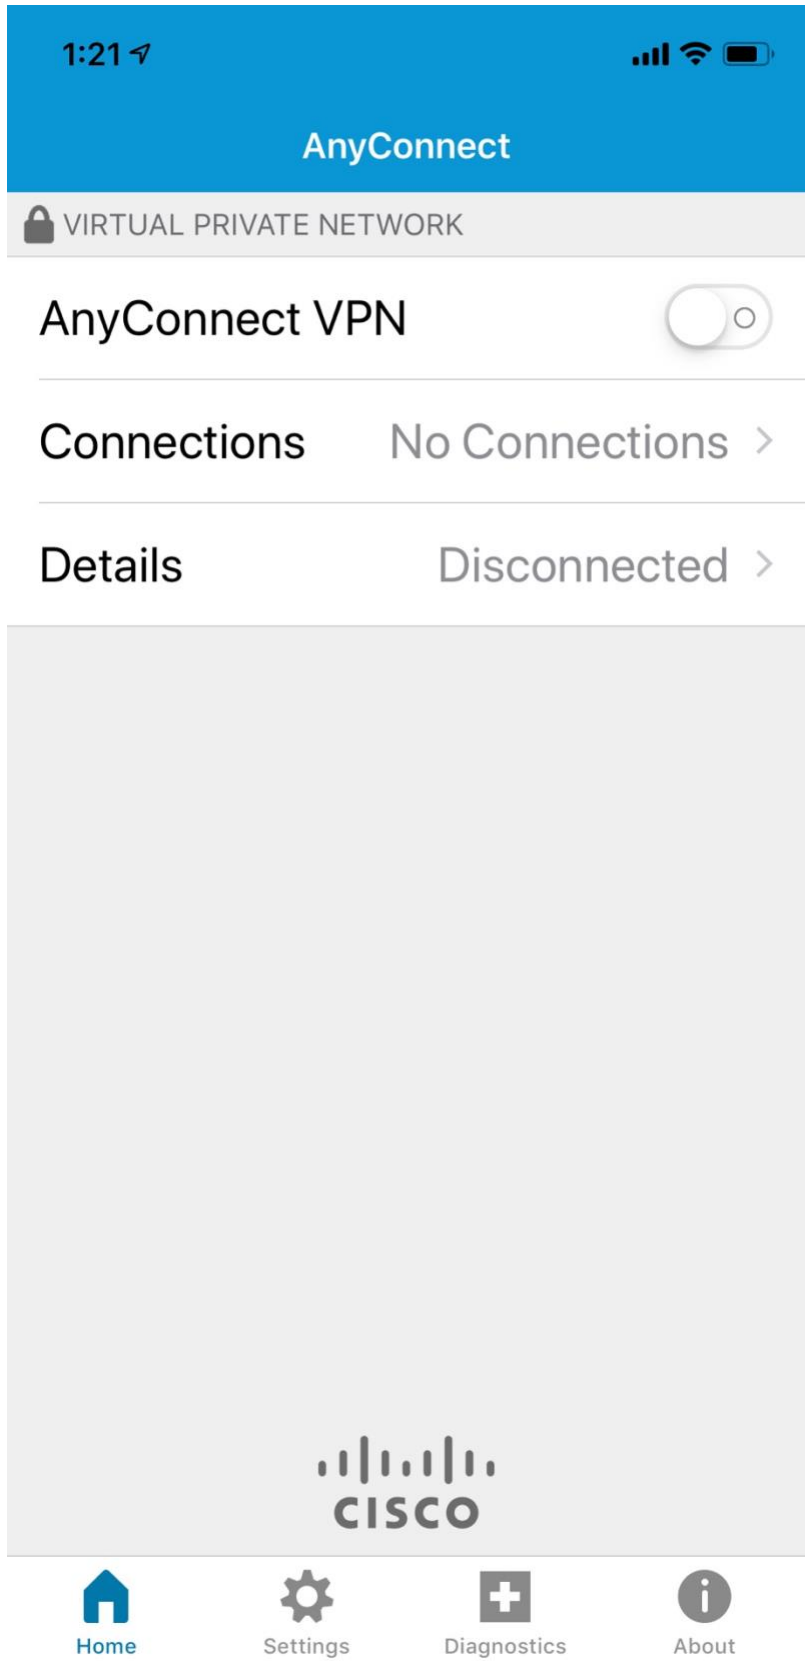

### “Work Around” for Mobile VPN Access for iOS Devices

The Pulse SSL VPN appliance used for Mobile VPN access is no longer available for use. The temporary work around is to download and use “Cisco AnyConnect”.

1. Download app Cisco AnyConnect Mobile client from Apple App Store.

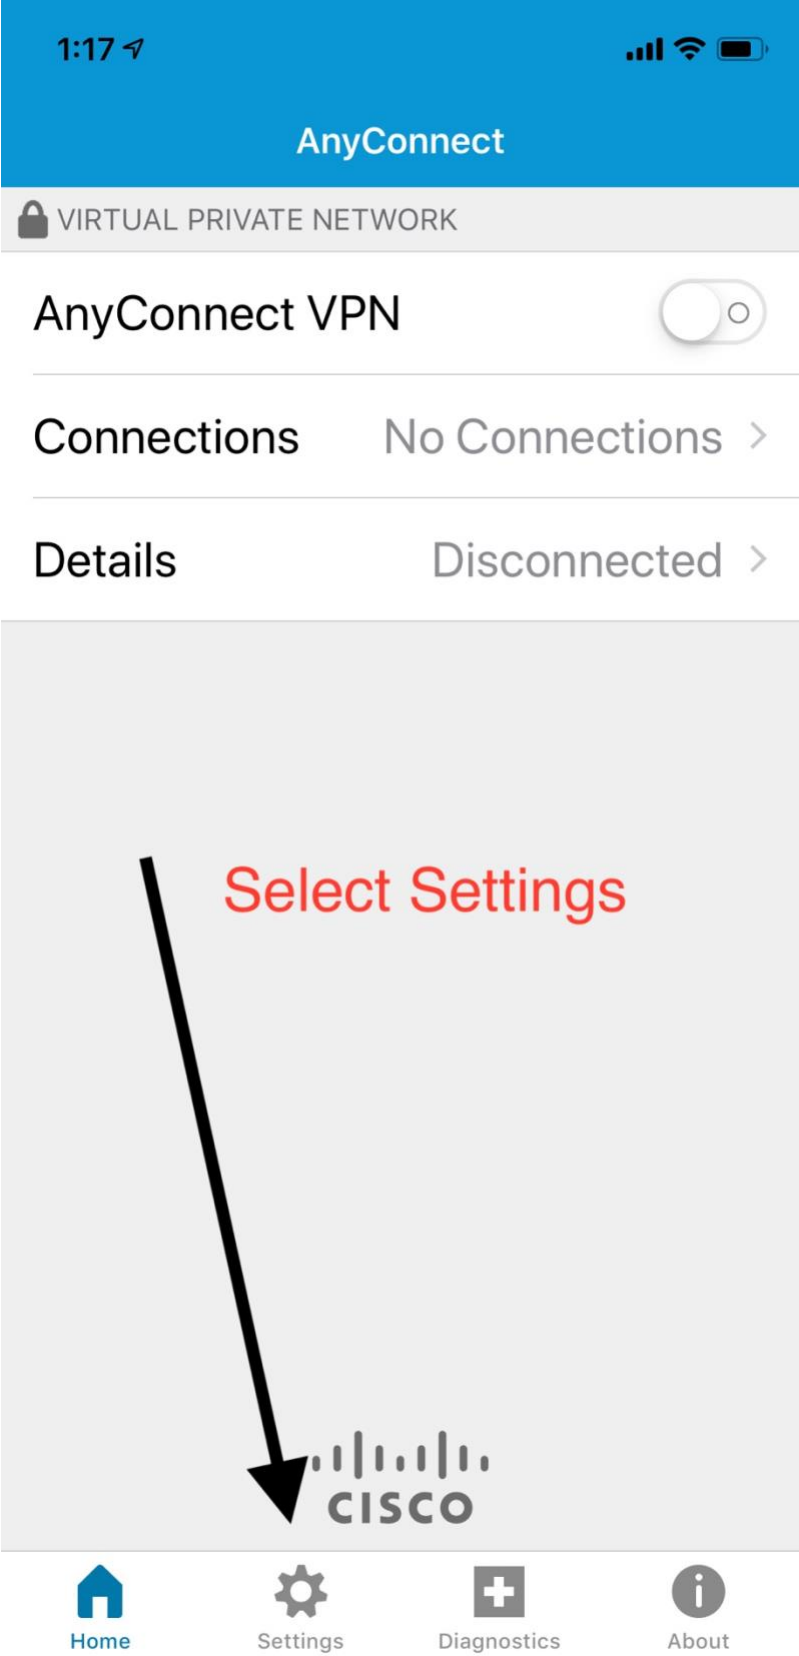

*Note: Cisco AnyConnect is a temporary work around for Mobile VPN access. This document will be updated when a long-term appliance for Mobile VPN access is determined. [Updated on 5-30-19]*
